

6-1 – Activities & Initiatives

Simple Working Paper – From Idea to Action & Multiplication

For one concrete Activity or Initiative of a GCN Work Group, Focus & Project Team or Local GCN

KEEP IT SIMPLE. This working paper is for one practical Activity or Initiative — for example a joint evangelism outreach, prayer gathering, training, disciple-making initiative, workplace activity, church-planting effort or community project. Complete only what is useful. The goal is collaborative Great Commission action, not administration.

1. Our Activity / Initiative

Name	Name of the Activity / Initiative
Initiated by	☐ Work Group ☐ Focus & Project Team ☐ Local GCN
Great Commission Area	☐ Prayer & Evangelism ☐ Disciple Making ☐ Church Planting ☐ Workplace & Agriculture ☐ Society & Community ☐ Equipping / Toolbox / Partners ☐ Collaboration

What do we want to do?	Describe the activity simply.
Why / desired fruit	What do we hope God will do through it? Who should be reached, equipped, connected, served or multiplied?

2. People, Place & Timing

Facilitator / Contact	Who coordinates it?
Who participates?	People, churches, ministries, organizations or partners.
Where?	Place / city / region / online
When?	Date / time / timeframe

3. What Do We Need?

Tools & Resources	Training, materials, venue, communication, equipment, finances or GCN
------------------------------	---

	Toolbox resources — only where needed.
Partners / Support	Who can contribute something we do not need to build ourselves?

4. Simple Action Plan

Next Step	Who?	By When?	Done

			☐
			☐
			☐

5. Keep the GCN Basics in View

Not every Activity or Initiative needs all of the following equally. Use them as simple GCN guiding questions:

Prayer	Are we praying and listening to God as we act?
Collaboration	Who is already doing something we can join, connect or strengthen?
Great Commission Fruit	How does this help reach people, make disciples, strengthen Christian fellowship or bring Kingdom impact?
Disciple Making	Where relevant, how will people be followed up, disciplined and equipped to multiply?
Whole Body, Kingdom Transformation	Can believers, churches, ministries, workplace leaders or community leaders contribute complementary gifts?
Multiplication	If this is fruitful, can it be repeated, adapted or multiplied by others?

6. After the Activity – Fruit, Learning & Next Step

What happened?	Short report: participation, outcomes, testimonies and measurable fruit.
-----------------------	--

What did we learn?	What worked? What should we change next time?
Follow-up	Who needs follow-up, discipleship, connection, further training or another next step?
What next?	☐ Complete / finish ☐ Repeat ☐ Improve & repeat ☐ Expand ☐ Multiply elsewhere
Next step / owner	What is the next practical step, and who will take responsibility?

7. Multiplication – Only Where Fruitful

Not every Activity or Initiative needs to become a larger project. Some are one-time actions; others can become regular collaborative activities. When something is fruitful and reproducible, keep multiplication simple: capture what worked, identify another facilitator or team, share the necessary tools and relationships, adapt it to the new context, and let local leaders take ownership.

PRAY → ACT TOGETHER → LEARN → STRENGTHEN → MULTIPLY WHAT IS FRUITFUL
